DETAILED ACTION

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-16, drawn to a kit for labeling an object and method of using, classified in class 101, subclass 333.
- II. Claims 17-20, drawn to a method for labeling an object, classified in class 101, subclass 483.

The inventions are distinct, each from the other because:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed can be practiced by another materially different apparatus such as a stamp inepad.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, recognized divergent subject matter, and different search, restriction for examination purposes as indicated is proper.

During a telephone conversation with Mr. Mueller on 2-23-2005 a provisional election was made with traverse to prosecute the invention of I, claims 1-16. Affirmation of this election must be made by applicant in replying to this Office action. Claims 17-20 have been withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

This application is in condition for allowance except for the following formal matters:

Art Unit: 2854

Claims 1-16 are objected to for the following reasons:

In claim 1, line 6, the word "bearings" should be changed to --bears-- so as to correct a grammatical error.

In claim 9, line 8, the word "bearings" should be changed to --bears-- so as to correct a grammatical error.

Also in claim 9, last line, the recitation of "said ledger" lacks proper antecedent basis.

Claims 1-16 distinguish over the prior art of record and thus would be allowed if the above objection was overcome in applicant's response to this Office action.

The following is an examiner's statement indicating allowable subject matter:

The overall combination of structure of a kit for labeling an object as claimed including the particular inepad, the integral writing instrument, the ink pen, and the inventory list as defined is not taught by the prior art of record.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
